

Circulars

16 June 2016

Dear parents,

As we gear up for the new academic term, we welcome you back to school with the hope that the vacations have been an opportunity to unwind and perhaps rediscover yourselves. We trust that you bonded as a family and are now ready for the myriad experiences that the year will unfold for our children.

For us at school, it has been business as usual as we anxiously awaited the Board results during the summer break. We are happy to share that our students did the school proud with their performance. This year the school had sent up the largest number of students to the Board exams and hence the challenge for us was daunting. In all this, the dedicated effort of our teachers and the efficacy of our processes and systems held us in good stead, as our students coped with the ever-increasing demands and pressures of a highly competitive system.

Even as we work hard to give our best to our students, we are always conscious of the fact that there is incredible amount of change around us and that we need to continuously stretch the envelope for ourselves to remain relevant and updated. To that end, the school has been sponsoring international training and exposure as well as the best in-house professional development for all our faculty members. The benefits of continuous and focused capacity building of staff have been visible in all fields. Today the school is on the map of global progressive schools. Not only in the use of technology, but in agile leadership, Changemaker school as well as innovation in education practices. The school remains committed to providing the best education to every child through its well-conceived and appropriately designed programs and practices.

Some important administrative changes/developments that we are happy to announce. Ms. Nitika Bajaj and Ms. Suman Samarth have been promoted to the position of HMs. Ms. Dolly Verma is no longer serving in the institution. As our campuses are geographically distributed, there is a need to decentralise some functions while still maintaining a whole-school feel about the institution. We hope that parents will continue to give us their support and that the synergy in the team continues to bind us together in the best interest of our children.

Wishing you all a very happy academic year.

Warm regards,
Avnita Bir
Director-Principal
